  University of Texas Health Science Center San Antonio
THE CANCER HEALTH DISPARITIES PROGRAM OF THE PEGGY AND CHARLES STEPHENSON CANCER CENTER (SCC) at the University of Oklahoma Health Sciences Center (OUHSC) is accepting applications for tenured/tenure-track faculty at the Assistant, Associate or Full Professor level in cancer epidemiology research. The goal of the Cancer Health Disparities research program is to build a robust, inter-disciplinary portfolio of cancer control research that will reduce the burden of cancer in Oklahoma’s most vulnerable populations – with a special focus on the American Indian population. The Program seeks investigators with the experience, vision and drive to leverage the resources of the Stephenson Cancer Center, its tribal and community partners, and the larger university system into a nationally prominent research team.

Associate/Full Professor candidates must have a strong record of scholarly achievement and extramural funding, and Assistant Professor candidates must demonstrate strong promise in these areas, including a record of securing extramural funding. We are particularly interested in individuals with expertise in tobacco prevention/control, environmental/occupational exposures, obesity and nutrition, social epidemiology, and clinical epidemiology. Qualifications include a doctoral degree in Epidemiology or closely related field. Salary is nationally competitive and commensurate with experience. The SCC offers generous start-up packages and excellent benefits.

The Cancer Health Disparities Program provides an exceptional infrastructure for conducting research and currently the Program includes more than 50 members. The OUHSC, located in Oklahoma City, is a comprehensive health center with Colleges of Medicine, Allied Health, Dentistry, Nursing, Pharmacy, Public Health and a Graduate College on the same campus. Graduate teaching and collaboration opportunities are available.

Oklahoma City is the anchor of a rapidly growing, multicultural metropolitan area with a population of 1.3 million inhabitants, over 300 days of sunshine annually, very affordable cost of living, excellent schools and a wide array of cultural amenities.

Applications will be accepted and reviewed until positions are filled. To apply, email a cover letter, summary of research interests, curriculum vitae, and the names and contact information for at least three academic references to:

Mark Doescher, MD, MSPH
Program Leader, Cancer Health Disparities
Peggy and Charles Stephenson Cancer Center
800 NE 10th Street, SCC 5031
Oklahoma City, OK 73104

Electronic submission of applications materials can be sent to: mark-doescher@ouhsc.edu. Confidential inquiries may be addressed to Dr. Mark Doescher and references will not be contacted without the permission of applicants.

The University of Oklahoma Sciences Center is an Affirmative Action/Equal Opportunity Employer.
Faculty Position in Social Sciences & Health Behavior with Emphasis on Aging Research

The Department of Social Sciences and Health Policy (SSHP), within the Division of Public Health Sciences (PHS) at the Wake Forest School of Medicine, invites applications for a tenure track faculty position at the Associate or Full Professor level.

The successful candidate will have the opportunity to play a senior leadership role in a number of large, well-funded, national studies on aging, cognition, and psychosocial and behavioral factors in disease development and progression. Further, s/he will have access to large databases for manuscripts and ancillary study development, and will be working with an outstanding and nationally recognized team of social, behavioral and medical scientists, epidemiologists and biostatisticians within a highly collaborative and multidisciplinary environment. The Department of Social Sciences and Health Policy in the Wake Forest School of Medicine is recognized as a national leader in research on aging, cognition and dementia as well as biopsychosocial and behavioral models of health and disease. The Division of Public Health Sciences (PHS) has over 50 faculty and 250 staff in three departments: Social Sciences and Health Policy, Epidemiology and Prevention, and Biostatistical Sciences. PHS is highly ranked nationally in NIH research funding among medical school departments of public health and preventive medicine. Opportunities for joint appointments are dependent on the areas of interest and expertise of the candidate.

Applicants should have a PhD, ScD, DrPH or MD. Additional training/experience in aging research and the behavioral sciences is required. Further, we are seeking candidates with experience in population-based observational studies and/or randomized clinical trials. A demonstrated history of building and leading collaborative and multidisciplinary research teams is critical. A successful record of extramural funding, strong publication record, excellent written and oral communication skills, and evidence of leadership at the national level are required. Expertise in psychosocial and behavioral factors in chronic diseases, health promotion, cognition, and women’s health are desirable but not required.

The Wake Forest School of Medicine is located in Winston-Salem, North Carolina, home of a vibrant arts community and with a population of over 500,000 in the Piedmont Triad area. Visit http://www.cityofws.org/ for more information about Winston-Salem.

Applicants should send a cover letter, curriculum vitae, and a summary of research interests to Dr. Sally A. Shumaker c/o Ms. Sonya Ashburn, sashburn@wakehealth.edu. Applications will be accepted until the position is filled. For more information about the Department of Social Sciences and Health Policy and the Division of Public Health Sciences, please visit: https://www.phs.wakehealth.edu/public/home.cfm.

Cancer Behavioral Research Faculty Position
Associate / Full Professor (Tenure Track)
In a joint recruitment effort, the Department of Epidemiology and Biostatistics, Institute for Health Promotion Research (IHPR) and the Cancer Therapy and Research Center (CTRC) at the University of Texas Health Science Center in San Antonio (UTHSCSA) invites applications for a tenure-track faculty position in behavioral science at the associate or full professor level with experience and extramural research funding history in Latino related cancer prevention and control, cancer health disparities and community based participatory research.

Institute for Health Promotion Research and the Cancer Therapy and Research Center: The IHPR, established in 2006 as a unit of the Department of Epidemiology and Biostatistics at UTHSCSA, directs many research projects that address chronic disease and cancer prevention and control research. http://ihpr.uthscsa.edu. The CTRC is one of four National Cancer Institute (NCI)-designated Cancer Centers in Texas and the only NCI-designated center in South Texas, serving a 38-county region of 4.4 million people. (www.ctrc.uthscsa.edu). The research activities at the IHPR, CTRC, and their host institution (UTHSCSA) provide varied and exciting opportunities for behavior research studies. The successful candidate will have the opportunity to collaborate closely with faculty from other UTHSCSA schools (i.e., Medical, Dental, Nursing, and Allied Health), the UT School of Public Health’s San Antonio Regional Campus, and UTHSCSA’s Regional Academic Health Center campuses in Harlingen and McAllen, Texas, located on the U.S.-Mexico border.

Qualifications: 1) completed doctoral degree (M.D. or Ph.D. equivalent); 2) track record of independent, peer reviewed grant funding; 3) record of peer-reviewed publications in the area of cancer and behavioral sciences; 4) ability to serve as principal investigator on externally funded projects and as co-investigator with multi-disciplinary research teams; and 5) contribution to the educational mission through teaching and advising graduate students and/or mentoring early-career scientists.

Candidate Review: Review of applications will begin immediately and continue until the position is filled.
Candidates should e-mail a letter describing their qualifications and interests along with their curriculum vitae, and contact information for three professional references to:
Amelie G. Ramirez, Dr.P.H.
Chair, Behavioral Faculty Search Committee
Director, Institute for Health Promotion Research
